DeNovo Cloud Business Management

Access your important data anytime, anywhere.

Dejavoo
an iPOS systems company

CLOUD CONNECTIVITY ON THE GO.

DeNovo is a complete back-office business system in the Cloud for standalone terminals. Receive automatic software updates. Set risk flags for real-time notification. Easily capture and upload digital signatures in seconds.

Contact us today to get started.

Automatic Updates

No need to do manual updates. DeNovo will notify you when an update is available, and your Dejavoo payment device will automatically download the latest software.

DejaPay

Secure payment engine designed to add points of entry for payments "on the go." Ideal for "line busters" from your mobile device to your countertop terminal or even outside your shop with a Dejavoo wireless device.

Batch Notification

Away from your business? No problem. Your Dejavoo payment device automatically sends you an email confirming your settlement and a summary of transactions. Login to your DeNovo account to view full batch and transaction data. It's fast and secure.

Call Me

There is no need to spend time on hold waiting for the help desk. Send a Call Me request through your Dejavoo payment device to have a representative call you instead. Communication problems? Send a Call Me request from your mobile phone or computer.

Have questions or need help?

A dedicated team member will be with you every step of the way.
