Tap to pay

Please tap the card until you see all the four green lights ON

Digital Receipts Available

High ROI
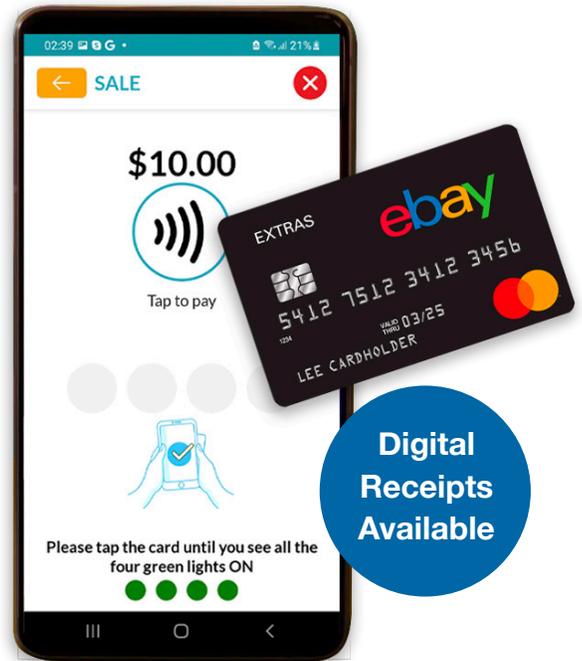

- Opens new market segment
- Zero investment on equipment
- Lower operational expenses
- App-based payment solution assures no downtime

Security

- PIN On Glass
- PCI – CPOC certified
- EMV certified

Lower chargeback risks

EMV transaction offers better chargeback protection than a manual key entry & swipe transaction.

Lower interchange

Contactless EMV transactions qualify for lower interchange. More money in your pocket.
